

Dear friends of Biodynamics,

you are invited to join and participate at the **World Biodynamic Day 2018 on Whitsun Weekend**. This is a day where the biodynamic community and their friends celebrate the beginning of biodynamics and apply together, collectively, the sacred biodynamic preparations at the same (local) time. Worldwide.

You can be a farmer or gardener, fan of biodynamics produce, hobby gardener or a person who wants to learn more about biodynamics. Last year over 300 people registered on facebook from all over the world. Everyone had their own way of World Biodynamic Day celebration. There were sleepovers, BBQ's, Eurythmy performances, story telling at a local Waldorf School, lectures or farm walks and not to forget, stirring and spraying of the biodynamic preparations.

The large community farm is invited in the same way to organize an event, as are those new to biodynamics or with only 10 square meter of garden. You find all infos how to organize a small or large event on, or just join: www.worldbiodynamicday.org/how-to-join

If you like you can register your event at www.worldbiodynamicday.org/worldmap or those new to biodynamics, can find a farm or garden nearby on this map.

Those very new to biodynamics find very basic infos about biodynamics on www.worldbiodynamicday.org/what-is-biodynamics

Please help spreading the word. There are a lot of places in the world that don't know about the Day yet. Please forward this email to friends and family, not only in your country, but across the globe, who know biodynamics, Waldorf Education, Eurythmy or Anthroposophy in generell or to those who want to learn about it. That would be wonderful. **(Just copy and paste this text in your email).**

You can find also images, photos, videos for your social media accounts on www.worldbiodynamicday.org/downloads that you can share on Social Media.

Please add to every post you make on Social Media **the hashtag #worldbiodynamicday** . That way we can find each other and see what others are planning or have been doing.

There is also a facebook page where you can register.

<https://www.facebook.com/worldbiodynamicday/> Or for a newsletter here:

<http://eepurl.com/do25Cf>

Do you have spare time available to help? It would be wonderful to have the website in the mayor languages (spanish, french, russian, chinese, hindu) available to reach even more people. You could just translate a paragraph or one page on the website, no need to translate everything. Just email worldbiodynamicday@gmail.com. And for any suggestions or questions, please do the same.

Thanks for taking the time to read all this,

best regards,

PS: Please don't forget to invite as many friends as you can, if they come or participate or not. Just copy and past this email if you have no time.
